SPECIFICATIONS

Overview

Sea Wings III is well maintained and in great condition. The flybridge is equipped for entertaining with a wet bar, grill, sink, fridge and ice maker. From the bridge, move down a floating staircase to an inviting and comfortable main salon. Just forward is the galley with a full-size refrigerator and oven. In addition, an auxiliary fuel tank allows for extended cruising time. Zodiac tender with Yamaha outboard is included.

- 10' Zodiac with 40hp Yamaha 4S

Marquis Yachts CE Class A Construction

Built to Exceed the World's Most Stringent Requirements.

All Marquis Yachts are built to CE Class "A" requirements – making a very substantial yacht.

Class "A" rigid requirements ensure vessels meet high safety standards regarding helm design, structural standards, stability, freeboard, buoyancy and flotation, deck and superstructure construction, maximum loading, handling characteristics, steering system, electrical systems, navigation lights and much more.

Class A

(Marquis Yachts)

Reserved for ocean going vessels from 39' to 255' LOA

Bulkhead joints to the hull, stringer, and deck are 100% secured on all surfaces with multiple layers of overlapping layers of fiberglass

Double-thick bulkheads provide increased structural integrity

Class B

(Most Other Brands)

Classifies boat as an offshore vessel only – not ocean going

Bulkhead joints are tabbed intermittently to the hull, stringer, and deck

Single bulkhead

Extra thick porthole glass built to withstand gale force sea conditions

Vessels largely self sufficient for extended ocean voyages

Structural design improves stability to withstand heavy center of gravity loads from seas exceeding 4 meters (over 13 feet)

Thinner glass

Offshore cruising only

Not certified to withstand seas exceeding 4 meters

Exclusions

Owner's personal belongings.

Disclaimer

The Company offers the details of this vessel or yacht in good faith but cannot guarantee or warrant the accuracy of this information nor warrant the condition of the vessel. A buyer should instruct his representatives, agents, or his surveyors, to investigate such details as the buyer desires validated.
