SPECIFICATIONS

Overview

The pride and joy that this owner/seller has for this boat shows the moment you approach her. Properly maintained and held to a strict maintenance regimen the vessel is always in a "Ready to Go" state. Powered by a pair of Detroit Diesel 6V92's delivering 535 HP and an economical 18 knots cruise and 23 knots top end this fully loaded boat. She is a no excuses vessel and will provide years of dependable service to her new owner(s).

While we are obviously seeking a little more than some of the other 46 Vikings currently on the market this vessel sets itself apart from the pack with its overall condition, updates and ongoing meticulous maintenance programs. Bringing any other boat to her level would cost far more than the difference being sought

A two (2) stateroom and two (2) head floorplan she offers plenty of space for entertaining and generous storage. A MUST SEE for the discerning buyer.
