- Drop Curtain to enclose forward section of cockpit & helm area
- Camper style top to enclose entire cockpit & helm area
- Custom Sea Strainer system
- Full canvas cover for topside of boat
- Central Vacuum

Accommodations & Overview

Below Deck Through the smoked glass companionway door and down flying wood tread steps, is a spacious and very well lit salon. The lounge is located on the starboard side of the boat upgraded with a factory teak and holly sole. The built-in recliners are comfortable and make relaxing and enjoying the 20" flat screen TV/DVD system with surround sound a real joy. Beautiful cabinets are above the lounge for storage and located at the end of the couch is a cabinet with storage for wine bottles and glasses. Even a central vacuum system is standard on the 4060. The table stores away easily and the couch can convert into a berth for two. **For the Chef** Across from the salon is a compact galley with more beautiful cabinetry. The galley is complete with a microwave, coffeemaker, Corian countertop, two burner cooktop and polished stainless steel sink. Next to the galley is the TV, surround sound system and a side-by-side refrigerator/freezer. **Staterooms** The main stateroom features an island bed with two large drawers and an under the mattress storage tray. Lighted, cedar-lined closets are on either end and for entertainment, a 13" color flat screen TV with remote. The forward head has a Vacu-Flush toilet, vanity with Corian countertop, and shower with circular enclosure. The mid-stateroom has a solid wood pocket door for privacy. Just inside the door on the port wall is a vanity with sink, mirror, and cabinet for storage. Just aft is a separate Vacu-Flush toilet and shower. This stateroom also has its own cedar-lined closet and air conditioning controls. With a filler cushion, the twin berths can convert to a single larger bed.

At the Bow Up front, the 4060 Commodore uses three hatches which cover large storage boxes

for storing fenders, lines, and ground tackle equipment. A stainless steel anchor roller, guard, and scuff plate lead the anchor cleanly to and from the windlass system. Connections for wash down are conveniently under the covers. Foot and dash actuators make retrieving and setting the hook simple. A sun lounger pad is centered in the bow and the back can be set for you to relax in lounge style or lay flat and soak up maximum sun. Also here are twin drink holders on either side of the sun pad for beverages. This one is equipped with the optional hardtop for maximum protection while in the cockpit. The wraparound windshield has a single wiper on the helm side and a center walkthrough for quick access to the bow and cockpit. **Cockpit and Engine Access** Entry to the cockpit is through a starboard side walkthrough transom door. The engine hatch switch is also located at the door. The engine hatch raises high providing great access to the engine compartment. Talk about room to work! Adding the IPS to the Volvo D6 diesel package leaves plenty of room to access all of the critical check and service points in this room. Back topside, the aft cockpit features an L-shaped lounge. Both seats are hinged and beneath the cushions is a ton of storage space for life jackets and more. In the forward wall of this section is a dedicated spot for the carry-on cooler.

Electronics & Helm Area
