Total Heads: 1

Hull and Deck Information

Hull Material: Fiberglass

Engine Information

Engines: 2

Manufacturer: Perkins

Model: 6-354

Engine Type: Inboard

Fuel Type: Diesel

DETAILED INFORMATION

Additional Information

Traditionally styled and showing a distinct Trawler profile, the Californian 34 is a still-popular family cruiser with exceptional low-speed economy and when equipped with the right engines - true planing-speed performance. Her solid fiberglass modified V hull has a fine entry forward which gradually levels out into nearly flat aftersections for stability and greater speed. While most trawler-style boats have been imported from Asia, the Californians were among the few to have been built in the U.S.. Wide sidedecks give her a rather narrow salon although the two staterooms below come as a surprise on such a small boat (While a single -stateroom layout was available, the two -stateroom arrangement was more popular.) Dark mahogany woodwork is applied throughout the interior. Outside, the aft deck area is large enough for a few chairs, and there's seating for a few guests on the large flybridge. Cruising speed is about 7 knots with the standard 85-hp Perkins diesels. Among several option engines, a pair of 210 - Caterpillars (or 200-hp Perkins) diesels will cruise the Californian 34 efficiently around 16-18 knots while reaching 20 plus knots wide open.(" **The Boat Trader Guide** ") 2005 edition.

Exclusions

Owner's personal belongings.
