Fuel Type: Diesel

DETAILED INFORMATION

38 Azimut Flybridge

It is not the length of a yacht that makes it special but its ability to meet the needs of its yachtsman and it is for this very reason that the Azimut 38 has been created.

It is a boat that is extremely easy to handle, environmentally friendly, easy to maintain and, at the same time, conveys the style, elegance and comfort that distinguish an Azimut yacht. We are talking about liveability which is guaranteed at maximum level by space distribution that makes use of every inch of her.

A careful study of the layout and full CAD design have helped to optimise the functionality of every single detail ranging from the flybridge - with a sun pad and sofa area with table - to numerous storage areas in various parts of the yacht such as the spacious wardrobes in the master cabin and the special area for storing the cockpit seats. In the dinette on the main deck, a careful study of the layout has guaranteed maximum liveability even when an extra bed inside the sofa is pulled out for guests when needed.

With a series of solutions designed for effortless control of the equipment including the Easy Docking joystick to assist with mooring and a touch screen monitor for monitoring all the onboard systems.

Upper Helm Station Electronics

- Raymarine C120|w
- Easy Docking by Xenta Systems controls
- Raymarine ST6002 Autohelm Series | Smart Pilot
- Bennett trim tab controls
- Fusion MS-AV600 radio with 2 Fusion Speakers
