# DETAILED INFORMATION

---

## DESCRIPTION

---

The 46Steel is 46 meters long with five-decks, a displacement hull, semi-wide body, high tensile steel hull, and 5083 aluminum superstructure. Her layout is inspired by the interior of larger superyachts to ensure onboard spaciousness and avoid any compromise in terms of comfort.

State of the art construction techniques coupled with specifically selected "anti-vibration" materials placed throughout the interior dampen and cut off all vibrations and noise. The exterior offers a series of terraces for unobstructed views overlooking the sea. A folding transom reveals a Beach Club at water level, providing generous amounts of space for outdoor entertaining – a feature usually found only in larger yachts. This is possible because the tender garage is cleverly designed to be located on the starboard side. The interior layout, cabin arrangements and endless choices of materials, fixtures, fittings and finishes can be fully customized to your desires. The final layout and configuration will be defined directly with the owner. The Sanlorenzo Americas experienced team will guide you through this process every step of the way.

## Exclusions

---

Owner's personal belongings.
