DETAILED INFORMATION

Vessel Walk Through

This vessel has been cared for by the best! If you have been to any of the BBC Bahamas Billfish Championships then you have seen this vessel in its Glory!!! Owned by the owner and promoter of the BBC of 37 plus years. This vessel has traveled with the promoter for the last 15 years and has been displayed at all the beautiful venues of the Bahamas Billfish Championships!

It is now proudly residing in Ft Lauderdale and can be easily shown to its next owner that would love to own this rugged well-built sturdy Hatteras that comes with the legacy of the Hatteras pedigree and the Bahamas Billfish Championship!

From the large cockpit, the salon is entered from an outward-hinged door just off centerline to port. Entering the salon, there is an L-shaped settee to starboard with a cocktail table. The L Shaped sofa converts to a queen size sleeper. The Galley has been customized to look like today's new Hatteras with custom pullout storage drawers, spice and condiment storage, plenty of pantry storage along with ample pots and pan storage. Full size refrigerator and separate icemaker. The Galley also has 4 inches of extra space. Moving forward of the salon and down four steps is the passageway to the staterooms and heads. The master stateroom is aft to starboard and features a large queen berth with Tempurpedic mattress, large hanging locker and a private head with stall shower. Across on port is a guest stateroom with upper & lower berths, good size hanging locker and private access to the guest head. Forward is the guest head with stall shower. The Forward V Berth has been converted to a nice and convenient office complete with file drawers and charging station for hand held radios or personal phone devices. The interior is finished in the original Hatteras teak woodwork that is in excellent condition. This vessel has very clean lines thru the companionway. Starboard side is the washer and dryer.

Vessel's Head system has been converted to today's modern Head Hunter freshwater system.

Vessel comes with spare props located in the lazarette.

The state-of-the-art Wave WiFi EC-HP systems is part of the boat and the new owner will be very happy to have it already installed and operational.
