## Overview

---

If you are looking to purchase a 75' Hatteras, then you are making a mistake if you pass this "one buy", she is in amazing, outstanding condition! Absolutely must be seen to truly understand her condition.

**"Tommy's Tiger"** has been exclusively used in the Great Lakes (freshwater) since the summer of 2004. She has been used mostly as a day cruiser. Absolutely "turn key", ready to cruise anywhere. She has been maintained and upgraded by her professional full-time captain and his crew of contractors (some of the best in the business).

"Tommy's Tiger" is in the water from mid-May until the end of October every year, at which time she goes into a out of water heated storage building. She is ready to go cruising!

**Captain's Notes:** Having run many different yachts over the years, including many Hatteras Motor Yachts ranging in size from 52' to 75', I am truly impressed by the way these 75's perform. She runs great at any speed and tops out at 28 knots.

**Note: 1000 hour service just completed by Michigan Cat to include valve adjustment.**
