## Overview

---

The Hatteras 36 Sedan is basically the same boat as the Hatteras 36 Convertible, but with a larger interior and smaller cockpit dimensions. The hull construction is solid fiberglass, and the hull is designed with moderate beam, a shallow keel, and prop pockets. This Hatteras Sedan is laid out with a dinette floor plan with a single stateroom. The head compartment is very large and includes a separate stall shower. The interior is finished with traditional teak woodwork throughout, and it's notable that a lower helm option was never offered. While the salon is quite roomy for a 36-footer, the cockpit has a great layout for fishing with the family or your buddies. Additional features include a big flybridge, good engine access, and fairly wide side decks. Powered by twin Caterpillar 3208s.
