DETAILED INFORMATION

Lazzara design highlights

Lazzara is the only company that supplies as standard equipment a diagnostic monitoring system. The **Integrated Ship Information System** is a computer monitoring system that monitors and records 64 different functions such as engine temp, fluid levels, pressures. This monitoring system records a “snap shot” every one minute of the yacht's functions. A user-friendly interface displays all of the functions at the helm.

The design criteria of maximizing space, a contemporary sleek styling, exquisite interior appointments, unparalleled performance and ease of maintenance are what makes the 76 Lazzara the most advanced yacht ever.
