 - Stainless steel boat name
 - Electric windows to cockpit pilot seat

Broker's Comments

A sleek and refined motor yacht the 48 Triton offers essential on board comfort and the ability to venture further afield. Her sleek hardtop comes as standard, protecting her cockpit saloon for our unpredictable UK weather. When the sun shines the cockpit can be opened up with the large sun roof and retracting stainless steel doors.

Down below her light and spacious accommodation features three sizeable cabins, with owner's suite forwards. Her twin amidship cabins are both fitted with panoramic port lights. This particular Triton is a very high spec, barely used and must be viewed!

Construction

Overall Measured Length: 51'5" incl. 26" pulpit and 12" dinghy.

Windy are a product of traditional craftsmanship, enhanced with the aid of modern technology. The latest technological innovation is the Wintec hull concept, which gives improved performance, greater strength and reduced noise throughout the vessel.

All the Windy models are CE-labelled. This means that Windy meets all the requirements laid down for quality control documentation and product liability within the EU. In the process of obtaining approval, the company has also introduced new methodologies, construction principals and more advanced construction production equipment, resulting in more cost-effective and quality oriented processes in-house. But above all, Windy is a "Boat Builder" and not a manufacturer of boats, a philosophy which characterises their production staff and all those within their distribution network.

- Modified deep-v hull with mono-hedron hull construction.
- Lightweight PVC foam girder stiffening system.
- PVC foam sandwich construction in hull, superstructure and deck.
- GRP laminate with advanced multi-axial fiberglass mats.

Engine Configuration & Machinery Details

- 2 x Volvo IPS 600 (435HP).
- Propeller shaft kw/hp – 310 / 422.
- Crankshaft kw/hp – 320/ 435.
