## Overview

---

Achingly pretty picnic boat from Shelter Island. 1998 build with twin Mercruiser 315HP petrols - she will crack 40 knots and her crew can lounge in superb Stidd driving seats whilst her deep-vee hull gobbles up the miles.

*Offered to co-brokers on a commission split of 50/50.*

# DETAILED INFORMATION

---

## Broker's Comments

---

The traditional beauty of the Shelter Island Runabout belies her incredible performance capabilities.

- The moderate V-hull is designed with 15 degree deadrise at the transom and a narrow 10 foot beam to provide a smooth, comfortable ride at all speeds. Combine this with noise abatement and vibration reduction systems and we have composed the perfect harmony between handsome styling, speed and comfort.
- The deck is designed with flexibility and safety in mind. An appropriately sized side deck is provided to walk forward without sacrificing valuable interior cabin or cockpit space. The cockpit and deck incorporate safe hand holds for adverse conditions. The forepeak contains the anchor with rode and provides additional storage for fenders and docklines. An optional anchor roller with windlass is available as is a stainless bow rail.
- The helm area provides safety from the elements behind a windshield and canvas tan top. To starboard is a Stidd Admiral Series helm chair, steering station with engine instrumentation and ample space for navigational equipment. On the port side there's an additional Stidd chair for a passenger plus two more plus a dash storage compartment. There is ample storage under the cockpit sole.
- The interior bulkheads are white and are trimmed in native cherry joiner work with flush paneled doors. Interior varnish is done in a traditional rubbed effect finish. Ample storage is provided in assorted lockers for clothing, food and dinnerware. Five inch thick cushions provide comfort for sitting or sleeping while four opening ports and overhead opening hatch allow natural lighting and abundant ventilation.

## Construction

---

### *Hull, & Superstructure Construction:*

- FRP/Decolite composite bulkheads and cabinets with teak trim.
- Awlgrippd dark blue.
- Vinylester resin used throughout laminate.
