SPECIFICATIONS

Overview

Built to a high standard this 2007 High Seas Explorer is extremely well equipped, extremely well maintained and superbly finished internally. The engineering will delight any owner with easy access to both sides of the engines as well as the generators. All plumbing and shut off valves are labelled and easy to check and view at a glance. The fixed stabiliser fins fully protect the propellers and allows the vessel to sit up on them for inspection if required. Powered by dual 255HP Cummins C255 shaft drive diesels she will cruise economically and in extreme comfort at 8 knots burning only 55 litres per hour. Offering accommodation in 3 cabins, a gourmet galley and wide open lounge space, she really is a serious ocean going passage maker.
