SPECIFICATIONS

Overview

The Hatteras GT70 is built on a variable deadrise running bottom with impact reducing convex shape at the bow, the GT70 is a boat engineered to excel under any sea conditions. Deep propeller pockets, solid fiberglass bottom, closed-cell foam coring, twin 1,900-bhp CAT C32A diesels or optional MTU 2600 bhp engines , optional Sea Keeper gyro stabilization — the technical highlights are many. The benefits: a safe, strong, reliable ride like none other in the premium sport fishing market. In essence, the GT70 is a workhorse with the bearing and grace of a thoroughbred. A well-equipped cockpit allows for new levels of fishing and cruising in a best-in-class 200 square feet. Its raised mezzanine has cushioned seating protected by an overhang next to an automatic sliding glass door to the deckhouse. The GT70 delivers a full bait and tackle center, in-deck fish boxes, insulated bait box and mounting plate for a fighting chair. Hatteras knows that space is sacred on boats, so storage is everywhere — in the steps to the deck house, and in the lazarette. If you want to bring it, the GT70 can stow it. The open flybridge offers a pod-style helm with single lever controls, plus three adjustable helm chairs and three bench seats with reversible seat backs. It's another full featured area from which to enjoy the journey, a journey only found on a Hatteras GT convertible.

Basic Information

Category: Sport Fisherman

Sub Category: Convertible

Model Year: 2016

Year Built: 2016
