## Overview

---

**OFFERS ENCOURAGED:** The 40' Legacy Sedan Bridge is a handsome cruiser with a fully enclosed Salon and lower helm (heated and cooled, of course) with a lockable cockpit door and side doors with direct access to the side decks. An L-Shaped settee and fold-out leaf table provides a comfortable spot for dinner, or to watch the Flat Screen TV from. The luxurious galley-down, two stateroom design features teak and holly flooring throughout the interior. Twin 370 hp Cummins inboards provide a comfortable 18 kt Cruise, and top speed of 24 kts, plus a Bow Thruster for nimble handling. Generator was new in '09, and she sees constant love & care.

# DETAILED INFORMATION

---

## Manufacturer Provided Description

---

This Legacy 40 Sedan is offered with the optional flybridge, featuring the inside and outside helm stations, allowing the owner to take advantage of the weather or avoid facing it entirely. Accessible by ladder from the cockpit, the flybridge offers superior visibility and an exhilarating vantage point for driver and guests.

The living space in the enclosed main saloon offers a 360-degree view from every seat in the house. White Formica offset by teak cabinetry, gives the boat's living space a crisp, nautical feel. In addition, port and starboard doors provides easy access to the sidedecks for docking and the aft door gives access to the cockpit. Down in the galley there's plenty of options for placing sinks and appliances where they're most convenient. Directly across the companionway is a guest cabin that comfortably sleeps two. The head is roomy, and the master stateroom's double berth is island-style so it offers the comforts of home.

Beneath the sole of the main saloon is a generously sized engine compartment that houses twin Cummins diesel engines. The Legacy 40 Sedan's engine compartment is well thought out with plenty of elbow room and convenient access to maintenance points. To keep it well organized and safeguarded, wiring and hoses are run through conduits.

The Legacy hull is balsa-cored uni- and bidirectional E-glass and polyester resin with an outer laminate of vinylester resin for improved resistance to blistering. Directional weave fabrics are selected to orient the fiber in the direction of the loads, so that the Legacy 40's hull is as strong and as light as possible. High-density foam stringers replace conventional wood ones to eliminate the transfer of engine vibration and, again, to meet high targets of stiffness, strength, and optimal weight. Three structural bulkheads are glassed to the hull to form watertight compartments, and the hull - deck joint is bonded and mechanically fastened on six-inch centers to the inboard turning hull flange. Her sound insulation package is state-of-the-art baffling with foam and lead shielding; in addition - because wood transmits noise and vibration - a cored composite sub-sole is placed beneath the teak and holly cabin sole. All deck hardware is forged of type 316 stainless for years of trouble free dependability. The bow rail surrounds the deck, extending the secure feeling of bulwarks in type 316 stainless, and only the best marine brand names have been selected in the outfitting. The Legacy 40 Sedan is built by hand in the USA and all major components are made in America.

---

## Engines & Mechanical Information

---

"Runaway" is powered by twin Cummins 6BTA5.9 liter inboard engines at 370 hp each.

She sees regular care & maintenance including Heat Exchanger cleaning, Water Pumps/Impellers, etc. There are dual, shift-on-the-fly Racors fuel filters to help mitigate Fuel Problems while underway. Motor mounts have been replaced and the Transmissions have been rebuilt. Shaft seals and Cutlass bearings have been replaced, and rudder posts have been repacked

The 6kw Northern Lights diesel generator was replaced in 2009, with 328 hrs of run time. The generator is capable of handling the full electrical load of the vessel.

An Oil-X-Change system makes routine servicing, a simple task.

A Glendinning Engine Synchronizer aid in vessel operation.

---

## Hull, Bottom & Bright Work

---

- The hull was painted with Awlgrip in '04, and has received a fresh application on "Finesse It" on an annual basis
- The running surface has been Soda Blasted, barrier coated and bottom painted
- All teak handrails are brightly finished with Bristol Varnish and have custom Canvas Covers.

---

## Navigation and Entertainment Equipment

---

- Sharp 19 inch HDTV in the Salon
