- Racor Fuel Filters
- Two (2) Engine mounted fuel coolers
- Torrid 20gl Hot Water System
- Village Marine Tec Reverse Osmosis Water Maker
- Sealand Technologies Macerator

---

## Manufacturer Provided Description

---

The Offshore 48 Yachtfisher possesses a solid hand-laminated fiberglass hull with epoxy barrier coat that is warranted by the shipyard for five years; its design features a generous beam and finely veed and deep forefoot that gradually tapers to a 12-degree deadrise at the transom. This design produces a hull that is quick to get on plane and knifes cleanly through waves and chop throughout the speed range. The craft's standard exterior includes two tone non-skid decks as well as window frames, doors and hatches made of gelcoated fiberglass so they can't corrode like aluminum or rot like wood. Moreover, the cockpit contains a fresh water shower in a molded FRP cabinet . Below deck, the 48 features quality hand-rubbed, satin finish Burmese teak cabinetry, and teak and holly sole throughout. The salon, staterooms, heads, and galley are built with the attention to detail that Offshore has been known for since 1948.

---

## Exclusions

---

Owner's personal belongings.

---
