## Overview

---

This 2008 Cummins QSB 5.9L 330 horse powered, Geoff Dickes Design, custom composite built Bass Boat, is like no other and very much a one of a kind classic designed boat. She cruise very nice and dry at 20+ knots with a max speed of 27 knots. Her aft tiller steering and engine controls make it a breeze to fish the rips or just harbor cruise with guests while enjoying a sunset. She comes equipped with Raymarine autopilot, Raymarine C120 chart plotter, bottom scope, Radar and Cummins digital smart craft engine monitor. She also has fresh and salt water wash downs along with a 30 gallon in deck live well. Her canvas patrol top, off the windshield, will help keep you cool and dry on those hot summer days!

Black Swan, is a true a work of art and should really be seen in person to truly appreciate her grace and style. When the designer and builder first met to discuss how she was to be built, the words, nice, easy, open water ride are what you would have heard. Currently her guest will refer to her as "amazing" "remarkable" and are overwhelming impressed with her comfort and ability in a seaway. Black Swan is exemplary of what can happen when a passionate builder connects with an equally passionate designer.
