SPECIFICATIONS

Overview

As you step aboard this 2006 Sea Ray 280 Sundancer, you will immediately recognize the care this boat has seen over the years. With only 300 Hours on the engines, and always stored out of the water, this boat is like new in many ways. Religiously flushed after every use by its current owner, the twin 4.3L Mercruiser engines have been serviced and ready to go. Unlike some of its similar, smaller models in the same class, the 280 boasts a 9'5" beam and 31'1" overall length with the optional swim platform. She looks, feels and rides like a much larger yacht. Schedule your appointment to see this Sundancer and take advantage of the remaining summer boating months!
