SPECIFICATIONS

Overview

Accommodations This vessel is highly maintained - the owner has spared no expense. This very innovative Navigator is known for her fuel efficient, stable dry ride and huge interior. She rides on the same solid fiberglass modified V hull used in other Navigator models. A 15' beam affords her a quite spacious interior and voluminous storage. The two staterooms are reached via a hallway a few steps down from the salon and offer air conditioning and heat. Both en-suite heads are fitted with a separate enclosed shower stall and vac-u-flush commodes.

The pilot house two steps up from the salon, is huge and as large as the salon with the galley to port and the dinette opposite with the lower steering forward to starboard. The very large dinette is open to the salon, has more locker storage and closet space than most 50' yachts and is great for live a aboard. The staterooms are configured for total comfort and privacy.

The yacht has a wide full walk around exterior, always helpful in picking up, comfortable access to the fly bridge via molded stairway rather than a ladder. Additional features include a shaded cockpit, transom door, radar arch, and wide side decks, twin Detroit diesels that will cruise the Navigator 42' at 20-25 knots and reach top speeds around 25 knots.

The air conditioned VIP berth is accessed down the starboard side companion way. It is full forward and offers a queen island berth with large drawers and hanging locker storage. there is a full rack of cabinets above the island berth and newer custom fabrics throughout. This cabin includes a fully outfitted head with a vac-u-flush toilet, generous storage and walk in shower.

The mid ship cabin is accessed via the companionway and offers an island queen berth with custom fabrics, flat screen TV, AC/heat, as well as fresh air ventilation ports. There is a drawer storage as well as an over abundance of locker space for an extended cruise. The master has an en-suite head with vac-u-flush toilet, maple cabinetry and large walk in shower.

There is a diesel heat upgraded hot water tank and Espar heat throughout. Also included is a Danforth 44 lb anchor - 250 foot chain. **Additional Information**
