SPECIFICATIONS

Overview

ZOOM ZOOM ZOOM is an excellent combination of speed, style, and versatility that has not only resulted in a positive owner experience but an incredibly successful charter program. At just under 500 gross tons and 50 meters, she can easily fit into most ports and operates under the less stringent sub-500 ton class requirements. With ABS classification and MCA certification, she is qualified to cruise and charter anywhere in the world because of her construction and safety pedigree. ZOOM ZOOM ZOOM has plenty of horsepower to achieve speeds that drastically reduce run time between ports when desired, and also has shallow enough draft to reach and cruise otherwise more restricted areas such as the Bahamas. She has had only 2 owners, but has been enjoyed by many return charter clients. She is aggressively priced to be the next Trinity motoryacht to sell.

GENERAL

Main Deck: The main salon and nearby bar and dining area are collectively designed to be elegant, functional, and comfortable for any gathering. The combined bar and dining area makes for a more open, social space. There is also no bulkhead to separate the dining and salon areas to present a more open feeling. Large windows with unobstructed views allow you to sightsee from any vantage point. The main aft deck is 18' long and has a large alfresco dining area for 10.

The galley is located on the main deck amidships just forward of the formal dining area. It is spacious with plenty of counter space including a center island. The chef has substantial storage and port side views through 3 windows.

Pilothouse Deck: Here you will find a massive alfresco dining deck, and a large entertainment skylounge with bar, gaming table and entertainment center. At the top of the central staircase from the main deck, a marbled foyer with a day head is located adjacent to the captain's accommodations. The upper aft deck is a generous 27' long and can accommodate 10 diners in comfort.

Swim platform: The enormous 14' swim platform is equipped with sockets for two giant sun umbrellas, and provides the ideal location for waterside dining, as well as tender landing and all kinds of watersports.

Sun Deck: Many features, including a bar with icemaker, refrigerator, sink and seating for 4, located beneath the hard top. Opposite the bar, on the port side, is a BBQ and storage area located aft of the L-shaped settee. The large Jacuzzi is situated at the forward end of the sundeck and is surrounded by sunpads. With room for chaise lounges and a nearby dayhead, guests rarely need to leave this fantastic deck.

Aft Boat Deck: Houses a crane to deploy the large tender and the waverunners.

OWNER

Master Stateroom: The full beam, split level master suite on ZOOM ZOOM ZOOM is an Evan Marshall signature feature, with forward facing vertical windows allowing for panoramic views, and more than 9' of headroom, which was created by reducing the depth of the Portuguese walkway above. The ceiling is appointed in cream leather with wooden trimmed coffers and gold leaf backdrop.

There is a comfortable seating area near the luxuriously designed ensuite his and hers bathrooms, that feature a marble Jacuzzi tub for her, equipped with gold and glass Lalique taps and large marble shower/steam bath for him.

The two levels of windows within the suite provide an abundance of natural lighting, which when coupled with the high ceilings, makes for a light and airy environment. Entering through the starboard marble foyer through double doors, you will pass the cedar walk-in closets and an owner's office with starboard views.

In the bedroom area, there is a 42" retractable plasma screen TV, and there is another identical TV in the living area, swinging out from a cherry wood wall unit to allow for angled viewing from the portside settee. The master stateroom is equipped with a wall unit with Crestron WI-FI touch screen and a remote control, via which the window treatments, mood lighting, entertainment and air-conditioning can be adjusted according to individual requirements.

GUESTS

Guest Staterooms: The four (4) guest suites, below and amidships, include two (2) VIP rooms with centerline facing king size beds, one (1) slightly smaller cabin with centerline facing queen size bed and one (1) twin bed suite. All guest suites have en-suite, marble bathrooms. Each

cabin is equipped with a wall unit with Crestron push button control, a WI-FI touch screen and a remote control to adjust mood lighting, entertainment and air-conditioning to individual requirements. The forward starboard guest cabin connects directly to the laundry area which allows the crew to service the areas without going through the main salon and guest stairwells.

CREW

ZOOM ZOOM ZOOM is run by 9 crew in 5 staterooms. Forward below decks is a spacious crew lounge and laundry room adjacent to three (3) crew staterooms with double bunks in each. The engineer has a separate stateroom aft next to the lazarette and engine room. Finally, the captain's stateroom is on the bridge deck behind the pilot house. **MACHINERY**

Main Engines

Engine Type: 2x Caterpillar 3516B-HD

Horse Power: 2x 3386 hp
