## Overview

---

NOTE: Since Oct. '18 over \$122,500. spent, in the engine room 10 Hours on rebuilt Port Eng. 3 Hours on All new crank bearings, total servicing. 570 total hrs on Starb. Eng. since rebuild. All new risers. new turbo A great selling boat, the Hatteras 65 Convertible is the most popular sportfishing boat her size ever built. She's a step up from the earlier Hatteras 60 Convertible—not only are her lines more aggressive, but performance was improved as well. The hull is an extended and improved version of the 60 Convertible hull with a finer entry, balsa-cored hullsides, and prop pockets to reduce draft. Her standard three-stateroom, galley-up layout is highlighted by a spacious, beautifully appointed salon. (An alternate floorplan with an enlarged owner's stateroom and low-profile galley became available in 1996.) With 183 square feet of space, the cockpit was the largest to be found in a production boat this size. Topside, the enclosed flybridge is luxury on a grand scale. Aft controls assist with docking and backing down on a fish. Note the distinctive engineroom air intakes in the hullsides. Typical of Hatteras yachts this size, the engineroom is huge with good outboard access to the motors. With the 1,350hp 16V92s she will cruise at 25 knots. A total of 120 of these yachts were built.
