Overview

Built with a steel hull with a aluminium superstructure with a beam of 11.43m (37'6"ft) and a 3.50m (11'5"ft) draft, this 60-metre length Lurssen motor yacht is equipped with an ultra-modern stabilization system which reduces roll motion effect, resultsing in a smoother more enjoyable cruising experience. She has 'at anchor stabilisers' which work at zero speed, increasing onboard comfort at anchor or on rough waters and her bow thrusters make her more manoeuvrable at low speeds. ARKLEY is built to comply to MCA and Lloyd's +100A1, SSC Yacht Mono, LMC G6, UMS standards and offers accommodation for up to 12 guests in 6 suites . She is also capable of carrying up to 15 crew onboard to ensure a relaxed luxury yacht experience.

ARKLEY is modern day culmination of similarly brilliant minds, unstinting passion and worldly experience, making this yacht the most sought after 60m charter yacht on the market today. With elegant lines drawn by the world renowned Espen Oeino and a spacious and striking interior created by the inimitable Mark Berryman, there is so much incredible attention to detail throughout this yacht, that every where you look, a new texture, feature or idea will impress and captivate you. ARKLEY remains as one of the most iconic 60-metre length vessel built by German shipyard Lürssen, awarded Motor Yacht of the Year during the World Superyacht Awards 2010 ceremony. There is no limit to the opportunities that ARKLEY provides while cruising the world's oceans, it delivers the best example of modern day ship construction, naval engineering, technological achievement and contemporary craftsmanship all packaged in a voluminous and expansive interior that knows no limits to the word luxury. To spend time on board ARKLEY, exploring what the world has to offer, is to spend time on board the ultimate example of hand built yachting perfection and the finest example of technical achievement.
