## Overview

---

**Loaded with options including a Mercury Racing 350 Verado for speed and fuel economy this 24' Yellowfin with custom powdercoated Ameratrail trailer is the nicest 24' currently on the market and would take many months and over \$120,000 to replace with a new one.**

Released in 2008, the 24' Yellowfin took the flats and bay boat market by storm by offering speed, fuel economy, a shallow draft, and a ride that were previously unheard of in the segment. The 24' was designed as an inshore fishing machine, with the ability to pole for bonefish on shallow flats and cross big bays in search of a tournament winning redfish, or make short work of an offshore run to find grouper, snapper, or pelagic fish.

This particular 24' Bay is one of the best-equipped 24' Bay models to ever leave the Yellowfin factory in Sarasota, FL. Loaded with a tower, full electronics package including autopilot, powdercoating, and a top-of-the-line tandem-axle trailer by Ameratrail this boat is turn-key and ready to find the fish. Professionally maintained by a captain since new and always stored on the trailer inside a private, climate-controlled facility this 24' shows like new and is not to be missed.

## Basic Information

---

**Category:** Center Console

**Model Year:** 2009

**Year Built:** 2009

**Country:** United States
