## Overview

---

"Child's Play" is a 103' West Bay, built by Westport and her interior was designed by Glade Johnson. She features and intricate interior design, with recessed moldings and back-lit ceilings. This year her interior was refitted with new carpeting, new headliner and the sofa & chairs were replaced and re-upholstered.

Her large salon window provides great visibility while docked or at anchorage. The aft deck is large with a curved settee, which can easily accommodate eight for dining. The overhang on the aft deck is canter-levered with no support post, offering an unobstructed view. This was accomplished by placing and running large beams the length of the salon.

The open country kitchen is forward with a raised settee and two bar chairs, which can be pulled over to the dinette to accommodate up to eight in the galley settee. The settee is raised to offer great visibility through the galley window, while dining.

The joinery workmanship throughout "Child's Play" is nothing less than exquisite.

There are four owner/guest staterooms, appropriately placed throughout the vessel, with the master stateroom amidship and the VIP stateroom forward.

Her master stateroom is full-beam with a king-sized bed, spacious closed and drawers, a vanity to starboard and sofa port. His and hers heads are appointed well with a Jacuzzi tub/shower.

The VIP stateroom is all the way forward through its own staircase. Her storage is spacious with custom curved drawers and full-length closets port and starboard.
