Fuel Capacity: 527 Gallons

Accommodations

Total Cabins: 6

Hull and Deck Information

Hull Material: Fiberglass

Engine Information

Manufacturer: Volvo

Model: TAMD 122pb

Fuel Type: Diesel

DETAILED INFORMATION

Layout & Accommodations

Sleep up to (6) owners/guests in the master suite with centerline queen and two mirror image double staterooms, each with side by side berths. The en suite master and day heads include separate stall showers.

Proceeding forward from the oversized swim platform, you will find the large teak-soled cockpit area, extended aft overhang with lighting and upholstered bench seating for six. From here you can access the spacious lazarette, engine and generator rooms, flybridge and port & starboard side decks.

From the cockpit, enter the salon through the stainless steel framed sliding glass door, beside which to starboard is the ingenious 40" electric powered window for full enjoyment of summer breezes.

The interior is all high end- fine grain glossy cherry wood and quality soft goods.

The spacious salon area offers a U-shaped plus Ultra-leather settee to starboard. Across to port is more seating, large flat screen TV and cabinetry concealing the entertainment center- DVD and AM/FM/CD players, refrigerator/freezer, ice maker and storage for your cocktail glasses.

Moving forward to starboard you will find the fully equipped down galley including two refrigerator/freezers, 4 burner electric stove top, convection microwave, deep stainless steel sink and access to the sizable pantry/storage area with wine rack.

Interior stairs to port provide another convenient access to the flybridge upper helm and entertainment area.

Forward of the galley to starboard, the elevated lower helm station offers an unobstructed view for the captain and first mate from the dual adjustable captain's chairs. Guests can relax and dine to port on the Ultra leather circular settee.

From the companion way forward, step down to the staterooms and heads. All cabins have opening port lights, overhead and reading lights, independent heat/air conditioning controls and clever storage compartments everywhere. The heads are VacUFlush.

The master suite has a queen-sized berth and round opening hatch overhead. Built in TV and AM/FM stereo are dedicated to the master.

The master en suite head is equipped with a unique shower where a curved Lucite door slides in a track to encircle the bather. The handheld shower head is height adjustable.

Two nearly identical guest staterooms, each with twin berths are positioned to port and to starboard. They share a second day head similar to the one in the master suite.

Deck

- Freshwater wash down-Bow/anchor
- 60' lbs. plow anchor stainless steel
- Stainless steel rails
- Anchor/chain, self-stowing
