Overview

The Ocean Alexander 90 feels almost native to the water. Her graceful bearing and hushed opulence are the first things you notice. Lingering behind her obvious splendor is 38 years of hard-driving, daring Ocean Alexander obsession. Our unwavering fixation with hydrodynamic science, naval design, refinement, craftsmanship and technological advancement has given her something hard to quantify in mere measurement and specs.

The 90 is where consummate facts meets indefinable attraction - and you become master of both.
