## Overview

---

The Marker One M27 begins with the proposition that all things are possible. That one boat can encompass luxury, performance, and recreational activities. The M27 pulls to the dock with something for everybody - skiers, swimmers, anglers, divers, snorkelers, campers, picnickers and, of course, those folks looking only for a perfect place to chill.

Thanks to the M27's innovative hull design, all aboard will enjoy a smooth, comfortable ride. Captain and crew will appreciate the quickness to respond and controlled stability in turns. Hulls of premium grade high gauge aluminum are bolted through a structural stringer system to an upper fiberglass deck for superior rot-free construction. And even with the maximum horsepower astern, the M27 maintains a balanced feel thanks to our patent-pending power wedge.

An added two feet of extra space on the M27 create even more room on deck for guests and their gear. Each compartment has various uses for all those last minute necessities and add-ons. The cooler also makes it easy to pack ice cold beverages and lunches for the perfect day on the water.

We can't forget to mention the tech savvy cockpit which features noticeably luxurious accents. From the leather-wrapped sport wheel to the aluminum dash panels with optional ebony Macassar accents, this gorgeous navigation panel is nothing short of first class. The sealed stainless steel switches and dual digital multifunction gauges also make for gorgeous scenery. And listen to your favorite jams with the Bluetooth enabled stereo system. Any device can stream Wi-Fi and controlled from multiple convenient locations.

Our journey on the M27 wouldn't be complete without the exclusive swim step. This underwater platform sits just below the water's surface - perfect for entering and existing the water. Used as a ladder, a swim step, or just to sit and relax without jumping all in, this special feature is one that will be enjoyed by all ages and even your friendly four-legged friend!

The M27 gives boaters a combination of agility, power, and stability that we call "performance beyond speed", all in a platform style boat that can manufacture noontday fun while riding at anchor.
