SPECIFICATIONS

Overview

The AB 116 summarises the style concept of sport superyachts, with a slender looking hull, smooth, tapering, and winning lines. The interior has been conceived in order to grant the utmost comfort in an environment able to create continuity between the exterior and the interior. The spaciousness of the main saloon immediately grasps your attention. The big windows create a sense of openness, and the general arrangement create a unique environment at sea. The main deck is designed in a loft style, and contains a large inviting saloon, that features a wide U-shaped sofa which faces a large 50" TV, hidden in a beautiful cabinet. Forward of the main lounging area, there is a large dining table for 10 guests. A bar flanks the main stairs to the guest accommodation, and contains a fridge, ice maker and sink. AB 116 pilothouse is discreetly separated from the salon by means of a panel at half height put in the centre of the area. You have a 360° visibility of the exterior from any point on the main deck. The full beam owner's cabin contains a large bright suite, a dressing room, and a large ensuite bathroom.. Two additional spacious double guest cabins, + a comfortable twin cabin. and an single 5th cabin. The crew quarters feature three cabins and bathrooms, a fully accessorized galley, and a crew mess. The aft cockpit,, features a large and wide sunbed, which can also be used as a sofa, and covered by the overhang of the superstructure, there is a dining area. Forward of the deckhouse, there is a large lounging area. What sets the AB 116 apart from other superyachts in her class is her flybridge. Here one finds large sunpads, another al fresco dining area, as well as a steering station for easy maneuvering in port. The flybridge however does not compromise the superyacht's sleek profile. MUSA, AB 116 is built using materials borrowed from the aerospace industry, which ensure light weight, yet high strength and solidity. MUSA is powered by three MTU 16V2000 M93 CR engines, producing 2400 HP each, with 3 MJP waterjets that allow the new AB 116 to reach a maximum speed of 48 knots with the utmost confidence and total absence of vibrations. Please note: asking price does not include the outstanding leasing
