SPECIFICATIONS

Overview

If you compare all the factory optional equipment, custom features, the Pipewelders package and all the upgrades of this model to a 2002 model... this 45' Cabo is, hands down, in a league by herself. Compare and you will find a huge difference... plus the seller is ready to move on and will consider all reasonable offers.

Basic Information

Accommodations

Total Cabins: 2

Hull and Deck Information

Hull Material: Fiberglass

Engine Information

Engines: 2

Manufacturer: MAN

Engine Type: Inboard

Fuel Type: Diesel

DETAILED INFORMATION

Vessel Walkthrough

"Power Play" has many upgrades starting with a 2002 front windshield with much improved visibility, upgraded wipers with fresh water. The owner replaced the MMC electric controls with Glendinning electrically assisted controls as are in the 2002 Cabos. There is a manual clutch and throttle cables; they are all electric and can be shifted with one finger. Shaft savers isolate engine and gear noise from the boat, which is a major plus for fish raising and most especially the noise reduction down below!! The new Panda 15k.W. generator with sound shield is the largest and quietest genset ever offered in a 45 Cabo. Eskimo ice maker that makes up to 600 pounds per day and dumps into a custom top loading bin that is about 4 long.

In addition to tower, which is coated with Pipewelders Clearkote finish, Power Play offers the optional second stateroom, teak and holly sole, custom carpet, custom Corian counter tops, sofa upgrade to the finest full grain leather, freezer plates in the cockpit ice box, retractable shore power cord, SSB ground molded to under side deck, engine room gauge package, Palm Beach pod mounted single lever electric controls upgrade to MAN 1050 hp engines, custom tool box in engine room, power steering, soft mount exhaust system, and the optional extra fuel capacity.

Salon
