Overview

NEW LISTING !

METICULOUSLY MAINTAINED AND UPDATED.

LUXURIOUS YACHT; TURN KEY CONDITION

READY TO CRUISE IN STYLE NORTHEAST USA.

Tecnomarine has long been regarded as one of the foremost shipyards in Italy and has been a trendsetter since the shipyards founding in 1972 by the Pichiotti Family. During the 40 plus years since its founding, Tecnomarine has built more than 300 yachts from 42' to 120'. In the mid to late 1980's Tecnomarine was at the forefront of the shipbuilding industry with its "Cobra" line of express cruisers, being some of the first to use the Arneson Drive System which was to become the industry standard for high performance luxury sportyachts. The Motoryachts built by Tecnomarine at the time, (of which "Voyager" is a prime example), continued to use the more conventional straight shaft drive with Twin Disc transmissions and Detroit Diesel Engines. All of the yachts built by Tecnomarine were built to class, such as Bureau Veritas, RINA, or ABS. "Voyager" was built to American Bureau of Shipping, (ABS), A-1 Yachting Class/AMS. This yacht is built like a "small ship" with damage control pumping hard plumbed into each compartment, on deck firefighting stations as well as automatic fire suppression systems in the machinery spaces, and other features designed to make the yacht both safe and seaworthy.

"Voyager" was hull number four of the T-58 design and built originally for an American client and construction was overseen by his US representative. "Voyager" has always been maintained to highest yacht standards and continuously upgraded. A unique vessel on the American waterways, this yacht has styling that compares favorably to the latest designs from Azimut, Sunseeker, Riva, Neptunus, or Fairline, and still features greater interior volume than the more recent models. This yacht has had three owners since new and every one has kept the vessel in true yacht condition.

Basic Information

Category: Motor Yacht

Model Year: 1993

Year Built: 1993

Country: United States

Dimensions

LOA: 58' 0" (17.68m)

DETAILED INFORMATION

Vessel Walkthrough

The Aft deck has plenty of room for al fresco dining and is protected by a large overhang from the flybridge. Access to the swim platform and TNT tender lift is via port and starboard Euro Transom stairs.

Going from the aft deck forward through Stainless Steel sliding doors with tempered glass one enters the salon. The interior of the vessel is finished in cherry and burl woods.

Entering the salon from the aft deck, the entertainment center is to starboard and opposite to port is the sectional seating area. Forward to starboard is the galley and opposite the galley is a formal dining area.

All the way forward on the main deck is the lower helm and Navigation station, and a centerline companionway to the lower level with a three stateroom layout, each with ensuite baths. The master stateroom is forward and there are mirror image twin berth staterooms port and starboard.

The crews quarters is accessed from the bow, and has a single berth and head and shower.

The flybridge features a half tower with full eisenglass enclosure, ample seating, and storage lockers. The flybridge is accessed from either the salon up gradual circular stairs to a sliding glass door or from the aft deck up a ladder.

Additionally "Voyager" features safe, wide walk around side decks with raised bulwarks and substantial stainless steel railings, easy steps up to the side decks from the aft deck, and a Euro transom with steps down both port and starboard sides to the large swim platform, and hydraulic TNT lift for the tender.

Access to the engine room is from the aft deck.

Main Salon

- Crestron audio / video control system with remote for TV and music
- Complete entertainment electronics including flat screen LCD TV, (behind retractable doors), amplifier, AM / FM Radio component, DVD player, Multi-disc CD player, and I-Phone Cradle
