## Обзор

This World Cat 330TE was the flagship model for world class catamarans during her production year. She incorporates the high-tech construction common to all world class boats with premium hand-laid fiberglass and no encapsulated wood. As her name implies, the 330TE is designed for serious anglers. She came with an impressive array of standard fishing features including two huge 45 gallon lighted live wells, tow tackle centers, fresh and raw-water wash downs, and molded in toe rail around the forward deck. Each sponson has a large insulated fish box, and there/s a third insulated storage box forward of the console. Below decks, the 330TE's compact cabin includes an electric head, port and starboard entry doors to center berth, and plenty of rod storage-modest accommodations indeed for a 33 foot boat. The World Cat's high freeboard makes for a dry ride in rough water. This is a serious fishing machine made for serious fishermen.

# ПОДРОБНОЕ ОПИСАНИЕ

## Accommodations

This World Cat 330TE is without a doubt the best equipped and best in condition (like new) 330TE you will find. Manufacturer Specifications Patented Vectorflo® semi-displacement hull provides a dry, stable and comfortable ride. Unibody Construction® fuses the hull and deck into one solid, seamless, unit utilizing methyl-methacrylate adhesives to create a water-proof chemical bond to maximize hull rigidity and strength for the life of your World Cat. Ten-year limited, transferable, structural hull warranty. Full 316 stainless steel hardware package provides a lifetime warranty against structural corrosion and pitting for years of carefree use. Handcrafted, 100% wood-free composite construction creates a solid, durable, rot-free platform for serious offshore performance. Independent propulsion, fuel, electrical, and steering systems provide powerful performance with the peace of mind you will be able to return home safely on one engine. Non-corrosive, polyethylene fuel tanks with 316 stainless steel sending units and flush-mount vents, which will not rust or corrode in the harsh salt-water environment. Large diameter PVC rigging tubes provide ample room for the rigging of electronics, while providing excellent chafe protection for the electrical systems. Self-bailing cockpits with four (4) oversized drains to utilize gravity to quickly drain your deck overboard. (All walk-through transom models have six (6) drains. Two (2) 1500-gph bilge pumps with automatic float switches quickly evacuate the hull to keep you safe and your hull dry in almost any situation. Rot-free transom constructed with fiber-reinforced, high-density, urethane Penske composite with aluminum backing plates to hold up to the stresses of high-horsepower four-stroke power. Armstrong style break-away dive ladder for easy transom entry for added safety and convenience. Water-resistant Armstrong style bilge hatches with compression gaskets in motor-wells to provide bilge pump access and serviceability. Livewells and fishboxes are double insulated with composite coring and urethane foam for consistent temperature control and long-lasting ice. Molded-in diamond pattern non-skid on all walking surfaces provide enough grab for safety without hurting your feet Toe-rails to increase cockpit floor-space and fishability while improving comfort and safety. Recessed port/starboard in gunwale rod storage provides easy storage and access to up to six rods in the cockpit area. Premium marine grade mildew and UV resistant vinyl and foam used on all upholstery to provide years of good looks and easy care. All hardware is through-bolted with aircraft-style nylock nuts with fender washers or backing plates to spread the load and assure proper performance over years of heavy-duty marine use. Oversize anchor locker for convenient storage of chain and rode at the bow, with hinged lid, rain gutter, and overboard drain. Heavy-duty wiring systems meet or exceed all USCG, ABYC, and NMMA requirements and include tinned copper wiring, Deutsch® sealed connectors, and Grayhill® digital switches, providing years of trouble-free use and worry-free boating. Unique battery management system monitors the two-cranking and one-house batteries and distributes electrical current to assure all

batteries are fully charged, while allowing for emergency paralleling for increased safety. Teleflex® hydraulic steering system with tilt-helm, stainless steel steering wheel, Kevlar hydraulic hoses, dual steering cylinders, and a liquid tie-bar that enables you to adjust for tandem or independent operation. All World Cat helms are ergonomically designed using CAD system to provide adequate placement of controls, gauges, and electronics while assuring comfortable bow visibility per ABYC guidelines. Chrome-plated, epoxy-coated stainless steel fasteners throughout for long-term performance and appearance. Four (4) twist lock 12V DC plugs in the cockpit for downriggers, electric reels, kites, or drink blender. High intensity waterproof cockpit lighting with stainless steel trim ring. Eight (8) euro-style stainless steel recessed cleats provide maximum holding power and minimum interference with fishing lines. Bow pulpit with roller and cleat. Raw and fresh water systems. Aft wraparound coaming pads. Lighted Danforth® compass. All World Cats are NMMA certified following ABYC standards while all models over 26 feet are Yacht Certified for added safety. Model Features Walk-through transom featuring two (2) 40-gallon recirculating, insulated, lighted livewells with 1100-gph magnetic drive pumps and overboard drains. Two (2) large in deck fish boxes w/macerator pumps. Gunnel-mounted lockable tackle storage (port and starboard). Additional house battery increases reliability and longevity of the battery bank. Fiberglass lean post with backrest, (2) tackle stations, raw/freshwater washdown, and bait prep station. Heavy duty, reinforced, stainless steel lifting eye. Low profile aluminum grab rail. Forward berth featuring a freshwater electric pump-out head with a 10-gallon holding tank and overboard discharge (port) and enclosed lockable berth storage area for rods, tackle and gear (starboard). 20-gallon freshwater system. (2) 1500-gph forward bilge pumps with auto switches. Fiberglass console with large electronics space, netted storage compartments, lockable electronics box, tackle storage unit, (2) cup holders, passenger handrail and tempered safety glass windshield. Cockpit Features What you will quickly see is that you can move easily bow to stern working fish and ducking lines without banging into a tight space. Toe-kick and coaming pads run the entire length of the sidewalls for added comfort and safety. The bait station on this boat is excellent. Lids are held open with magnetic catches. The tray in the sink pulls out for easy cleaning. There is fresh water and raw water washdown sprayer on top, and all kinds of tackle and knife storage. Wrapping up the stern, the gunwales have a total of five rod holders on each side. Tip out tackle boxes and a tip out bin are on each side making quick changes while trolling easier. Access panels get you quickly to the fuel/water separators and to shut-offs. The top of the stern walkthrough has a cutting board bolted in that is easy to replace when the time comes. A transom swim platform and dive ladder is conveniently located center line between the outboard engines.

## Fishing Features

Fishing Features Forward The 330 TE is a tournament ready boat. The bow of the 330 offers a great location to spot fish and cast. Aggressive diamond grip covers all the

horizontal surfaces. The anchor windlass up front makes setting and pulling the ground tackle easy, and the line lockers were large enough for storing the fenders as well. With the 330 TE, you also have a decent sized cuddy to escape the sun, or catch a short nap between fishing holes. Over on the port side, pulling up the cushions reveals a ceramic marine head that's standard. Topside again, each corner has power connections for electric reels or downriggers. Dual 300-quart fish lockers in deck on each side, another in deck up front compartment offer deep storage for gear or your catch. Port/Starboard gunwales have rod holders for trolling, and recessed rails for hanging on when the going gets a bit rough. The redesigned seat in front of the helm will be one of the most demanded seats in the house. It's not only comfortable, but it also serves as an insulated cooler or additional storage. T-Top with additional rod holders and Taco Grand Slam 350 outriggers (18') Two (2) 40 gallon live wells located port and starboard transom, both insulated, lighted, with 1100 mph pumps and over board drains 27 total rod holders, 5 on each gunwale (port/starboard) Aft Cockpit Tackle Station with fresh/salt water, stainless steel bait tray, tackle drawers Port/Starboard gunwale mounted tackle storage lockable compartments
