Engines: 2

Manufacturer: MAN

Model: R6 Common Rail

Engine Type: Inboard

Fuel Type: Diesel

DETAILED INFORMATION

2006 43 Cabo

“Serenity Now” is one of the last "California Cabos," those made completely in California to Cabo's original specifications. It is the only 43 available with the desirable 6 cylinder 800 MAN common rail engines. She cruises comfortably at 27 knots with incredible fuel economy. Maintained by a professional captain with all required engine service completed on schedule. With only 700 hours, do not miss this opportunity.

Owner is anxious to purchase a larger vessel and encourages all serious offers.

Walk Through

The Cabo 43 Convertible has an inviting, practical layout.

As you enter the main salon from the cockpit you are greeted by a large L-shaped settee in leather, breakfast/dining area adjacent to the open galley featuring built in storage shelves and teak & holly sole. An entertainment center completes the room which has great light due to large windows down both the Port and Starboard sides.

Walking down 2 stairs to the guest companionway, you have a complete head with toilet, sink, and roomy shower. There is the queen sized master berth with Tempurpedic mattress, and a versatile forward cabin that has 3 single berths in an over-under bunk formation. This allows great flexibility for a variety of guests staying onboard or for overnight fishing trips.

The upper bridge has it all. Sitting area forward of the bridge, 2 helm chairs, and new Strataglass enclosures all around protect both you & the top end electronics package.

The cockpit, as with any Cabo, is a great place to entertain or fish due to her large beam. Additional refrigeration and freezer space is found throughout the boat.

Electronics

Garmin 8212 gps map with 12 inch touchscreen display, preloaded US coastal charts and Bahamas, 2015
