## *14. COMMENTS*

Delivered by Baglietto in 2009, BURKUT is the fourth superyacht built in Baglietto's successful 54m steel hull full displacement series and is Lloyds classed and MCA compliant. She was built to a high specification including 3 large generators + an emergency set as well as zero speed stabilizers.

The yacht has been especially designed to allow a large passage for a wheelchair directly from the quay to the passerelle. Further to that the yacht offers full large access to the main deck for the wheelchair and a glass elevator connects the lower and upper decks.

The top deck features a large spa / wellness centre including a gym, massage room, sauna, steam room, Jacuzzi and beauty salon.

Having been carefully managed BURKUT offers more than most of the competition in her class."
