### Accommodations

The accommodations and livability of Cherokee Wind may be matched but can't be beat on a 31' boat. The arrangement is fairly straightforward with V-berth forward followed by a starboard side head, opposing settees in the main saloon, port side galley, starboard side quarter berth and navigation station. The 11' 6" maximum beam and wide waterline beam allow accommodations to be pushed outboard providing plenty of livable space. The galley is U-shaped and is the size found on 35 to 38 footers. There is a clever arrangement for the quarter berth and navigation table which allows the chart table to be flipped up and a folding door to be extended to for an enclosed quarter berth cabin.

## Hull

Cherokee Wind had a completed bottom job done in 2013 including remedy any defects and blisters

## Broker notes

The owners of Cherokee Wind - this Island Packet 31, has done an extensive amount of work. The quality of the their work can be seen in the interior. Unfortunately, health problems have forced them to place her on the market at a discounted price.

If you are interested in a well build, roomy boat for either a live aboard or family cruiser at a great price this is the boat.
