## Overview

---

**Extensively Upgraded in 2015** This 1995 Hatteras 54 Convertible has always been kept in a covered slip since new. It has the highly desirable CAT 3412s with approx 2900 hours. In 2015 a complete new electronics package was added with top of the line Garmin touchscreens, CAT digital engine monitors replaced all original analog gauges and all control switches at the helm were replaced with new. Brand new outriggers, center rigger and rocket launcher was added along with new salon couch and carpeting. The bottom was painted in 2015 and it is ready to fish or cruise. The full 3000hr CAT service is currently being completed. The owner is now a two boat owner and is ready to listen to offers! **PRICE REDUCTION - ASKING \$310,000**  
**BRING OFFERS - MOTIVATED SELLER**

# DETAILED INFORMATION

---

## Vessel Overview

---

As you step aboard this classic Hatteras Convertible you will first be impressed with the huge 157 sq. ft. cockpit with transom door and padded bolsters along the gunnels. The cockpit has a molded tackle center which houses a live well, a prep station, direct engine room access and cockpit engine controls. There is also a freezer and various storage drawers located in the face of the tackle center.

The access ladder to the bridge is located near centerline and has custom made steps to make the climb easier and safer in all sea conditions. Once on the large bridge the helm station is clearly a work of art with all necessary gauges, controls and electronics easily visible. All electronics are flush mounted eliminating the need for an overhead electronics box. The hardtop has a large hatch for access to the top and grab rails for real world sea conditions. There is abundant seating forward of the console with rod storage beneath and there is a custom foldaway table made of Starboard that converts this area into a practical lounge area. Additional seating runs fore/aft along the port side with rod storage beneath.

Two steps up from the cockpit you enter the spacious carpeted salon through the sturdy hinged door with an ice maker and electrical control panels hidden behind the salon cabinetry immediately to starboard. The salon is tastefully decorated and equipped with stereo surround sound and recessed overhead lighting throughout. Farther forward on the starboard side is the dinette with seating for four along with the stereo and large flat screen TV. Along the port side of the salon is a large L-shaped couch with storage underneath and the well equipped galley is located forward of the couch. The galley has granite counter tops, separate under the counter Sub-Zero fridge and freezer and wood flooring. This is the low profile galley design which allows for a more open feel in the salon area.

Located forward in the salon is the companionway leading to this highly desirable 3 stateroom/3head layout. Moving forward down the companionway there is the washer and dryer located to starboard enclosed within its own laundry cabinet. Immediately forward of the laundry cabinet is the midships guest stateroom with over/under bunks, hanging locker and direct access to the midships guest head which has its own shower stall and access from the guest stateroom or the companionway.

Continuing forward is the forward guest stateroom with over/under bunks, hanging locker, storage drawers and direct access to the private head with separate shower stall. The master stateroom is located amidships on the portside which is the quietest and most stable location on any vessel. This large stateroom rivals the size of master staterooms on many motor yachts and boasts a walk around queen size berth, a huge stand up closet, abundant drawer storage, television and entrance to the private head

with stall shower. This layout offers the ultimate in privacy and luxury and will meet the needs of the most discriminating fisherman or cruiser. In 2015 Miranda Marie received extensive upgrades to include all new electronics including two Garmin multifunction displays for chartplotter, bottom sounder with CHIRP and radar. New VHF, Auto pilot and multi display in addition to new CAT digital monitor displays which replaced the outdated analog engine instrumentation. All control switches at the helm were also replaced. Miranda Marie got new outriggers, center rigger and rocket launcher along with a new salon couch and carpeting. Various pumps were replaced and the bottom was freshly painted. The outboard motor on the 13 ft Whaler tender was even rebuilt. See the itemized lists for additional details. The full 3000hr CAT service is currently being completed so this boat will be ready to cruise or fish. The price was just reduced and the owner is motivated to listen to offers!

---

## Salon

---

- Air Conditioning with reverse cycle heat and digital controls
- Mini-blinds on all windows and professionally decorated decor
- Large L shaped couch with storage located beneath cushions - **NEW 2015**
- Leisure Chair
- Varnished wood table with internal storage
