SPECIFICATIONS

Overview

Custom built for a knowledgeable yachtsman, this fully stabilized vessel is loaded with equipment and features commonly found on much larger yachts such as bow and stern hydraulic thrusters, watermaker and a long list of extra equipment and custom touches such as the full size commercial refrigerator in the galley along with all new soft goods in 2015.

The well-proven Squadron 78 Custom is equipped for relaxing and entertaining on a grand scale. The huge and commanding flybridge gives the first clue to this remarkable yacht sociable intentions,. The elegant floating seats surround the large teak feature table where secret lights in the table itself create a discreet, romantic ambiance.

Poise and sophistication also reveal themselves whilst underway. The Squadron 78's design places heavy items like fuel over the center of buoyancy, which gives it it's legendary sea keeping properties, a pleasant sound and low vibration throughout.

Grand private staterooms combine light, space and air to stunning effect and as you move through the large, spacious entertaining areas you start to appreciate that behind the effortless nature of this yacht lies a wealth of well-considered features. In fact, it boasts the most extensive list of standard equipment in it's sector.

OCHO UNO is a very low hour vessel, turn key and ready to go!
