SPECIFICATIONS

Overview

Built in 2014, the Sunseeker 101 Sport is the first of her kind to come onto the market. She includes high performance twin 2640hp MTU 16V 2000 M94s on a smooth shaft drive system, and has the capability to reach 32.5 knots. The boat presents as new with less than 400 hours use on main engines. Sandy's impressive exterior is striking and innovative. Her stylish interior comprises a generous salon on the main deck and four luxurious cabins, accommodating up to eight guests in her full beam midship Master cabin, forward VIP cabin and two twin cabins. She also extends a dedicated study/office in the lower accommodation. On deck, Sandy boasts a sports fly with helm station, seating and sun bathing arrangement, a large cockpit aft for dining and lounging in the sun, and an additional area on the fore deck with bench seating and yet again another sun bathing area. She also features a hydraulic swim platform which enables easy launching of the tender and toys, a 'FLIR' camera system and underwater lighting.
