SPECIFICATIONS

Overview

The ALL NEW Gran Turismo 46 with IPS 600s

The new design of the Gran Turismo is tailored to the American market. The new 46 GT will be replacing the 44 GT which was launched in 2012. Her main differences from the 44 GT are the new sexier lines designed by the famous Nuvolari-Lenard architects and her incredibly spacious re-designed cockpit layout including two large lazy-boy seats in the aft section of the cockpit.

She is now equipped with Beneteau's patented air step design and Volvo's IPS 600s. This powerful combination gives her incredible efficiency and performance.

The new 46 also offers the option to enclose the cockpit with uniquely designed glass doors giving her owner the option to entertain or cruise in any weather.

Call today to find out more about her many unique features and options including:

- **Volvo D6 435 IPS 600s**
- 2 or 3 stateroom layout and 2 heads with separate full showers
- **Full Beam Master**
- Transom mounted grill and sink
- **Hydraulic Swim Platform with integrated chocks**
- **12" or 16" Simrad NSS Evo 2 Electronics**
- 2 Electric Lazy-boy chairs in the cockpit
- Glass Cockpit Doors to enclose the cockpit
- and much more.... Click on Full Specs to see more details

Every new Beneteau comes standard with a 3 year stem to stern warranty and a 7 year structural warranty.

Basic Information

Sub Category: Express

Model Year: 2016

Year Built: 2016

Country: United States

Dimensions

LOA: 46' 0" (14.02m)

LWL: 44' 3" (13.49m)

Beam: 13' 9" (4.19m)

Max Draft: 3' 9" (1.14m)

Clearance: 15' 8" (4.78m)

MFG Length: 48' 6" (14.78m)

Speed, Capacities and Weight

Cruise Speed: 30 Kts. (35 MPH)

Max Speed: 34 Kts. (39 MPH)

Displacement: 23208 Pounds

Water Capacity: 106 Gallons

Fuel Capacity: 238 Gallons

Hull and Deck Information

Hull Material: Fiberglass

Engine Information

Engines: 2

Manufacturer: Volvo

Model: D6 IPS 600

Fuel Type: Diesel

DETAILED INFORMATION

Air Step 2

The Air Step 2 is an evolution and an improvement on the first generation, based on customer experience and Beneteau's in-house research and development.

The basic principle remains the same: a V step with lateral chines for perfect grip when turning.

The step creates an "air cushion" under the hull which reduces drag thus providing better performance and a significant cushioning during passage through choppy waters.

The Air Step 2 in Figures:

- **3 x more air** under the underwater portion of the hull thanks to the air inlets placed directly under the hull
- **1.5 knots fast** than the GT 44 (same load)
- **1,500 lbs** more aboard and still the same performance. This means more equipment and more comfort for the same performance.
- **Compatible with IPS:** IPS Compatibility has been endorsed with more than 300 hours of testing in all weather and sea conditions

Exterior

Deck Equipment

Courtesy lights in the cockpit

Navigation lights

Mooring Equipment

- Bow fitting with anchor securing system
- 1,000 W Electric Windlass (with remote control)
