ХАРАКТЕРИСТИКИ

Обзор

The newest Carver model, the C50 Command Bridge is sure to make waves in a market that has not seen these types of features in a yacht this size. A three stateroom, two head layout and one of the most spacious layouts of any boat in its class. An open concept main deck layout provided by fully opening glass doors that blend the cockpit into the galley and further into the main salon giving the perception of a space found on a much larger yacht. Some of the most unique features of this Carver C50 is the separate entrance to the full beam master at the aft end opposite the galley. Forward of the main deck salon will be stairs down to the VIP and guest stateroom, which will share a head and separate shower. Another one of the many unique features that will set the C50 apart from any other yacht in this size range is the optional day head on the main deck. She will also feature a spacious flybridge layout and a truly usable foredeck seating area.

This Carver C50 will have a standard engine package with twin Cummins 6.7L 480HP diesels providing a top end of 28 knots. Optional Cummins 6.7L 600HP will have a top speed of 33 knots and that largest engine package, the Cummins QSM11 715HP will have a top speed of 36-37 knots.

** This price is for a fully loaded and commissioned new boat delivered to Fort Lauderdale with an extensive list of desirable factory options. The base price, (advertised by some dealers) FOB factory, is substantially less. It is our policy and standard communication procedure to disclose what the new boat truly costs, ready for you to enjoy. We are happy to supply a detailed list of costs upon request.
