# SPECIFICATIONS

---

## Overview

---

The Carolina Classic 28 is a sturdy, strictly-business fisherman with clean lines, and a deep-V hull. Construction is solid fiberglass, and her 10'6" beam results in a very roomy cockpit. It has a surprisingly complete cabin below with a big V-Berth, stand-up head with shower, a compact galley with Corian countertop, microwave, and teak-framed cabinetry. Easy-access engine room (the entire bridge deck raises at the push of a button.) The cockpit has plenty of room and includes a pair of in-deck fish boxes, gunnel rod holders, a transom livewell, and fresh and raw water washdowns. Additional features include side-dumping exhausts, wide side decks, high gunwales, and a well-arranged helm with flush-mounted electronics.

Original owner Boat well maintained and very clean.

# DETAILED INFORMATION

---

## Manufacturer Provided Description

---

The 28 is a machine totally designed and precisely built for one purpose: Offshore trophy fishing. Because fishing conditions vary, we offer a combination of twin engine power and drive choices. Gas or diesel. Conventional inboard or jack shaft to sterndrive. And long-range fuel capacity for all. Plenty of living room, too. A cabin with six feet of head room. V-berth with filler. Galley with microwave, sink, refrigerator and table. Full walk-in electric head with shower. And storage areas throughout. Best of all is how easy she is to maintain. The dry, oversized engine compartment provides roomy access to the hydraulics, generator, pumps and batteries. The bilge runs in a tunnel underneath the gel-coated engine room, so all vital mechanics stay dry and clean. The air intakes are high above the sheer to keep corrosive salt spray out. Even the cabin walls are finished gel so they can be easily cleaned and kept free of mildew. The 28 is complete. There's a very short "extras" list. The most popular is the command tower, which encloses the lower helm station and provides a complete second station above.

## Additional Description

---

Bridge clearance with tower is 12'0".
