SPECIFICATIONS

Overview

The Triton 2895 is a well-built center console whose rugged construction and impressive list of standard features appeal to hard core anglers and fishing families alike. Triton builds a good boat— the company's fiberglass and aluminum bass boats are top sellers in the freshwater fishing world, and their series of saltwater center consoles and walkarounds are equally well regarded throughout the industry. Constructed on a solid fiberglass deep-hull with moderate beam and a fully integrated transom, a step in the bottom about two-thirds back from the bow provides increased lift. The roomy cockpit of the 2895 boasts plenty of storage space for tackle and boating gear. Highlights include a molded bow pulpit, raised casting deck, two-person leaning post with built-in 50-gallon livewell, 21-gallon transom livewell, forward console seat, popup cleats, raw water washdown, and transom door. The walk-in console features an enclosed head with holding tank and 5'8" head room, and the forward casting platform includes ample storage underneath. An impressive rough-water performer. Gracie Bear is a very good example of a well maintained 28' Triton CC with low hours (475 hrs) and fresh electronics. The 250 HP Evinrude engines have had recent service with new ECM's, oil pumps and fuel pumps. Owner has current service records showing condition and history of use. Brand new Fusion Radio, Remote Control Spot Light, engine controls and bottom paint. The next owner is going to appreciate all the attention that this boat has had. **MB**

Basic Information

Category: Center Console

Model Year: 2004

Year Built: 2004

Country: United States

Dimensions

LOA: 28' 0" (8.53m)

Hull and Deck Information

Hull Material: Fiberglass

Engine Information

Manufacturer: Not Applicable
