SPECIFICATIONS

Overview

Designed in collaboration between The Moorings, architects Morrelli and Melvin and builders of Leopard Catamarans, Robertson and Caine, the Leopard/Moorings 4600 (4 Cabin Layout) is a blue water cruising catamaran that combines spacious living accommodations, high quality construction and great performance. Built in Cape Town, south Africa, the Leopard/Moorings 4600 is fully equipped with twin Yanmar 55hp engines, full electronics, generator and air conditioning as standard. The raised helm station, open to the cockpit, is situated in the extended hardtop roof, covered by an additional hardtop, and has all controls led aft, for excellent visibility and ease of maneuverability. The leopard/Moorings 4600 configuration features four (4) air conditioned private staterooms with en suite heads and showers, plus additional forepeak berths, a fully fitted modern galley and a full size navigation station in the saloon. The signature "walk-through" access to the roomy cockpit and aft bathing platform, connecting the two transoms, completes this exciting new model. Solar panels have been fitted to the 4600's to increase battery life and reduce battery waste.

Basic Information

Category: Catamaran

Model Year: 2010

Year Built: 2010

Country: St. Lucia

Dimensions

LOA: 46' 0" (14.02m)
