SPECIFICATIONS

Overview

Just totally refitted, Talina is a highly authentic example of this iconic Swan model from Sparkman & Stephens. Launched in 1975, she has been meticulously cared for and treated to major refits in 1991, 2007 and more recently in 2018 with a new teak deck, masts and boom repainted, new sails, new plotter in cockpit, new sinks in galley, etc. She is now lying in Catania, Sicily and ready for her new owners to step onboard and sail away.

COMMENTS

Talina is a highly authentic example of this iconic Swan model from Sparkman & Stephens. Launched in 1975, she has been meticulously cared for and treated to two major refits in 1991 and again in 2007. Under her current ownership (since 2003) she was used for Mediterranean cruising until 2006 when her owners decided to sail her back to her birthplace in Kokkola Finland where she underwent a complete refit at the Yxplia Boatyard under the management of former Nautor director Ola Hallmann. As you will see in the following pages, practically every system was either replaced or refurbished during this extensive maintenance period breathing new life into this incredible yacht.

She had an important refit in 2018 with a new teak deck, repainting Masts and boom, new sails, new plotter in cockpit, new sinks in galley, etc. She is now lying in Sicily and ready for her new owners to step onboard and sail away.

HULL & APPENDAGES

The hull is constructed in single skin GRP

Lead and Antimony fin keel

Skeg rudder with stainless steel stock

All new sea cocks in 2018
