SPECIFICATIONS

Overview

New listing new to the market.

Another simply gorgeous Riviera Sport Yacht! Her silver metallic hull is a real eye catcher everywhere she goes. Vessel was featured in the 2013 September boat show in Seattle to rave reviews and sold within two days of show. Her painted hull and painted electronic antenna's are very striking and unique in their appearance. She features 2 staterooms plus an optional lounge area in lieu of the third stateroom.

Lounge area settee converts into two single berths when needed. Her interior features wall to high gloss Cherry wood thru out giving the boat nice rich warm nautical feel.

Engines: 2

Manufacturer: Cummins

Fuel Type: Diesel

DETAILED INFORMATION

Specifications

Vessel Walkthrough:

"Skyliner" (name reserved) is a 2013 two stateroom sport yacht design with Zeus pod's and Cummins power. She is fast, economical and extremely well built and laid out. Her large aft cockpit area is very comfortable for a large party with full beam aft sofa lounge area and large L shape settee. The entire cockpit area is teak decked with entertainment wet bar, ice maker, and garage style center console dingy storage. At the push of a couple buttons the transom door lifts hydraulically to reveal the center a yacht tender and descending swim platform ideal for launching and recovering the dingy or simply enjoying swimming and diving activities with simple access back to the boat.

Zeus pods provide joy stick control of engines and transmissions allowing a novice to operate this vessel like a pro. The pods provide excellent economy and performance and propel this vessel to speeds in excess of 30 knots with minimal sound levels and very low gallon per hour fuel consumption.

The main salon is on deck as is the galley and helm station providing for an ideal socializing area. The hardtop roof features a very large electrically activated sun roof that when open provides fantastic fresh air without the wind or noise common on express models. The salon and galley are fitted with factory glass and stem ware, plates and dishes, as well as high gloss cherry woods and custom designed interior fabrics and upholstery.

Below deck the lower salon is arranged with a sofa that converts to two bunks. There is a TV built into the wall that will serve both the lower salon and forward master stateroom. The master cabin is ensuite with head and shower. The VIP stateroom is mid ship with a queen berth as well as a single third sleeping position. There are berths for seven! The guest head is in the companionway and serves both guest sleeping areas as well as day head uses.

General Information:

Manufacturer Provided Description

Embarking on the development of an entirely new style of boat is one of the most challenging and exciting projects we have undertaken in recent times. The inspiration for our Sport Yacht series, came from recognising the changing values and lifestyles not just of boat owners, but people everywhere – changes that are reflected in such domains as contemporary architecture, interior design and the styling of prestige cars. Although luxury is as desirable as ever, the trend globally is towards less formality. In so many areas of life, easy living and convenience have taken the place of stuffy traditions, unnecessary embellishments and sometimes ostentatious and impractical features. Such was the thinking behind the design of our first Sport Yacht, the 3600. And it appears that our thinking was correct. The enthusiasm for this vessel and the larger 4400 model exceeded all expectations: the clean lines, the bright, contemporary interior, the modern materials, the emphasis on easy entertaining, the solid feel and handling together with the spirited performance are among the many qualities that made this one of our most successful new model launches. Now we have taken all this one step further with a significantly larger and even more refined model: the 5000 Sport Yacht. The flow between the cockpit and the saloon that so many found so refreshing is even more inspiring on this 50' model. It brings the inside outside like never before – and the saloon is brighter and lighter than ever. The ease with which you can cater to a large party and the standard of comfort your guests can enjoy is magnificent. Australians are masters of informal entertaining. For us it is all very relaxed, even though our catering is often lavish and of superb quality – so it is only fitting that it should be a vessel with an Australian heritage that brings these principles to life on the water. For your entertainment, we proudly present a profile of the 5000 Sport Yacht.

- Ensure effortless entertaining, a wet bar with a stainless steel fridge-freezer and (optional) S/S icemaker, complement the generous seating and electric BBQ.
- Escape the heat in the luxurious six-seater leather lounge in the reverse cycle air conditioned room.
- Luxuries include the Bose Lifestyle system, LCD TV, cocktail cabinet and folding table.
- Serve both the saloon and cockpit with ease, from the aft galley.
- One of the greatest pleasures is sitting at the helm.
- The electrically adjustable helm chair, the ergonomically designed console, and the vast, curved windscreen all enhance the moment.

Rear Garage

- An electrically operated rise and fall swim platform works in conjunction with an onboard launching system for the 3.1 metre tender that is neatly garaged out of sight,

in/under the rear transom upright.

Additional Comments:

A wonderful socializing and family Sport Yacht. Unlike most its competitors the functionality of this Riviera Sport yacht is very practical and proven. Having the helm, galley and settee all one level lives no one out in the cold.

Vessel has been maintained by a Captain and it shows it. Vessel is in a private location and prior arrangements to view must be made.

Exclusions

Owner's personal belongings.
