SPECIFICATIONS

Overview

Foam is a custom built, full displacement yacht, designed by the house design time of The Italian Sea Group, which gave her a traditional meets modern design. The grey hull creates an elegant contrast with the white superstructure and she has a modern profile thanks the expansive windows on the main deck. At mid ship, the bulwark is lowered to accommodate a panoramic view off the main saloon. The saloon also features full-height windows to let in plenty of natural light. Her sun deck is one of the largest for yachts in her class. Interiors featuring bespoke joinery and furnishings, leather, silk and stainless steel details. Guests are accommodated in four staterooms, one of them is a large VIP. The full beam master suite has double access from the lower and - through the walk - in wardrobe, from the main deck. The crew accommodations are split between the lower and main decks, with the galley and crew mess forward on the main deck and three crew cabins, including the captain's cabin, located below. FOAM is in „as new“ condition and still under warranty.
