SPECIFICATIONS

Overview

SY SEAQUELL has a superior pedigree, built by Alloy with Dubois Architecture. With less than 40 meters air draft clearance and a range of 4,000 nautical miles under power, she has proven herself as a true global cruiser. Her travels under the current ownership have included the Pacific, Caribbean, Great Lakes, Mediterranean, the Baltic and Black Seas. She features many luxurious appointments such as Jacuzzi, Sauna, and a voluminous interior which far surpasses any other Sailing Vessel in her class. Not for sale or charter to US residents while in US waters.

Deck Material: Teak

Hull Color: Blue

Hull Designer: Dubois

Exterior Designer: Dubois

Interior Designer: Agnes Comar

Engine Information

Engines: 1

Manufacturer: Luggier

Model: L6140 AL Turbo Diesel

Engine Type: Inboard

Fuel Type: Diesel

DETAILED INFORMATION

Guest Accommodations

Guests will enter the wheelhouse/upper salon through either a port or starboard doorway. The salon offers a 360 degree view of the horizon with comfortable seating for guests as well as the interior steering station and navigation center well-suited for passage making. To port there is a large countertop and wet bar well suited for casual entertaining and guest service.

Forward of the helm station and below is the main salon. Whether one wishes to host formal dining or simply relax, this light and well-appointed area has been renewed by present owner and holds a vast library of music and videos to entertain.

Leading aft from the salon are port and starboard guest cabins. The port VIP cabin has a queen berth and starboard has twin berths which can also be converted to one king size bed. Granite floors and counter surfaces within guest heads have been renewed as of 2013. All interior rooms are unusually spacious for a 30+ meter sail yacht.

The master stateroom is aft with a full beam area to relax. A steam shower is available aside from the normal bath amenities. Forward and port-side of the master is a bonus room or nanny cabin. This room can serve many different functions including a Pullman berth for sleeping, a gymnasium for work outs or simply a storage area for luggage.

Exterior Decks

The full beam stairways leading up the transom are an early Dubois/Alloy trademark and make for easy access on to the spacious aft deck. Spacious lockers are accessed back here on either side of the deck level Jacuzzi as well as a removable stainless and teak swim ladder which makes entry and exit from the water an easy task. The twin steering station wheels and controls allow for excellent visibility while under sail as well as when docking the boat in close quarters. Forward of the helm station is a very comfortable center cockpit which provides an excellent venue for outside dining or a wonderful area for guests to observe the sailing action while underway. This area is partially enclosed by isinglass to maximize comfort for guests in windy or cold conditions.

Immediately forward and above the lower cockpit area is an bonus lounging area or "crows nest" providing an elevated view of the horizon and can comfortably seat 6 guests. This is an ideal area to be part of the sailing action as it is located right below the boom! The foredeck and side decks are generous providing ample space to work or play.

Galley / Crew Quarters

Forward of the main salon is the full beam galley and crew mess. All appliances are up to date and original galley has been upgraded to provide exquisite dining experiences. Two crew cabins forward provide berths and private areas for up to 5 crew.

Engine Room & Mechanical Spaces

The engine room is accessed from the aft passageway and is well equipped for long passages. The present owner has stayed on top of routine maintenance and there are complete records available for inspection.

Deck Equipment

- Anchors & chain: 2 x Manson anchors 100m chain each.
- Cranes: Nautical Structures hydraulic tender crane. 1000kg max load
- Windlass: 2
