Overview

Be Sure to See this Exceptional Vessel

at the US Power Boat Show in Annapolis, MD October 13 - 16, 2016

The Back Cove 41 is the largest vessel to-date from Back Cove. She is built with a single Cummins QSC 8.3 600hp diesel engine, bow and stern thrusters, gen set, battery charger, reverse cycle heat and air conditioning - all standard.

A center transom door leads from a generously sized swim platform to an expansive and comfortable cockpit with seats and storage to each side.

The interior layout provides two private queen-berth staterooms each with their own head. The salon has large opening windows and a bi-fold door. The central galley location serves the open air cockpit as easily as the salon. The galley has two stainless steel refrigerator drawers and freezer mounted below the helm seat.

Storage is abundant aboard this Back Cove 41. In the master stateroom, there are two overhead lockers and two shelves located port and starboard, a port side locker/bureau with maple dovetail drawers and shelving, a starboard side cedar-lined hanging locker and additional space for bulk storage underneath the queen berth. The master head has storage underneath the sink and locker directly outboard. The guest stateroom has an outboard shelf, a bureau with drawer and drawer storage below the berth.

This is a must see boat!
