SPECIFICATIONS

Overview

The building of VIRGIN at the Lazzara facility in Tampa Florida has been featured on the TV show "Extreme Yachts" series 2 episode 1. The show is currently available on Youtube and well worth watching. VIRGIN is the flagship of Lazzara's LSX line. Built for a discriminating yachtsman and three time Lazzara owner. This revolutionary yacht is totally custom built throughout. The knowledgeable owner spared no expense on any of the components throughout the yacht. The carbon fiber fly bridge, three times larger than her predecessors, features generous seating arrangements and an eight foot long bar. Ideal for large parties or intimate dinners. The flush deck main salon floor is a spectacular black wood inlaid with stainless steel. The dining table is amazing, it's built out of clear Lexan with a polished clock mechanism. This working mechanism expands and retracts the table leafs accommodating up to eight guests. An expansive master stateroom with an additional three guest staterooms make up a total of four luxurious in suite staterooms. Crews quarters aft accommodating up to four crew in two cabins with lounge and full head. She's powered with three very efficient custom painted Volvo IPS 1200 engines, giving this magnificent yacht a smooth and silent ride. Cared for by a full time professional crew she is truly in like new, turn key condition.

Basic Information

Category: Mega Yacht

Model Year: 2014

Year Built: 2014

Country: United States

Fly Bridge: Yes
