## Overview

---

The “Sugar Daddy” is a true head turner, originally built in 2000 as the “Charmer.” Her strikingly beautiful craftsmanship even graced the cover of “Southern Boating” in November of that year. This uniquely sophisticated, cold-molded boat was built by Michael Rybovich for a discriminating Rybovich enthusiast with an open check book. The original build cost was over \$1.2 million at the time, and today the estimated build cost is approximately \$1.8 million. In addition to her beauty and historic pedigree, she has a smooth, dry, and overall impressive ride in all sea conditions. The present owner has gone through the boat from stem to stern with more than \$300,000 and 2 1/2 years devoted to bringing her up to today’s standards. Virtually every system has been expertly refurbished, replaced, or upgraded with a majority of the work completed by Michael Rybovich & Sons located in Palm Beach, FL. This one of a kind vessel is being offered at a fraction of her replacement cost. The “Sugar Daddy” is a must see for any custom buyer with appreciation for attention to detail, uniqueness and a love for the express boat model.
