## Overview

---

Built at the Sanlorenzo Viareggio shipyard in GRP and designed by Francesco Paszkowski, Souraya was delivered in 2012. She is the fifth yacht in this semi-displacement fiberglass line named SD122. Souraya is an elegant and technologically advanced yacht, her modern lines with retro shapes recall the great transatlantic liners of the 30s. Her interiors feature eucalyptus wood for soles and furnishings, with stainless steel inlays additionally adorning furniture. She provides accommodation for up to 10 guests in 5 staterooms. Owner's suite is located on the main deck with the main saloon where as the other guest cabins are on the lower deck. The upper deck features aft deck dining area and sky lounge. The flying bridge offers plenty of space for sunbathing, enjoying drinks at the bar or at Jacuzzi. The twin Caterpillar engines give her a cruising speed of 11 knots and maximum speed of 16 knots. Souraya is in the excellent condition as never been chartered and still owned by the first owner.
